Board of Education

It has been a busy year for Board members, but a year challenging in its opportunities to serve the school and community.

Special projects included completion of the Marysville Gardens Elementary School, which was dedicated on October 17, 1956. Attention is now being given to landscaping and development of the grounds.

Plans have been completed and recommendations made to the City Planning Commission to approve extension of the school site.

Work on a new code is continuing, which will define more clearly policies relating to employment, training, compensation, tenure, sick leave, and retirement.
